

Double Degrees

- The Department of Computer Engineering has a collaboration with Kanazawa University, Japan, in the Double Degree Program at both the Master's and Doctoral levels, in which students may receive degrees from the two institutions. Students can apply to study in the Program during July and August.

Hi-FI Program

- The Higher Education for Industry (Hi-FI) program was developed to address the industry's shortage of skilled personnel. Educational institutions participate in both personnel development and collaborative research with commercial potential, creating intellectual properties for companies and universities. Bachelor's degree graduates are accepted to work full-time for two years in establishments that need to develop or improve manufacturing processes, as well as conduct research or contribute to innovations. The program focuses on funding students to enter the industry while working alongside their studies.

Doctor of Philosophy (3-4 years)

Course Structure

Category	No. of credits		
	Plan 1.1	Plan 2.1	Plan 2.2
Compulsory	-	-	3
Selective	-	12	21
Thesis	48	48	48
Total	48	60	72

Remarks

Plan 1.1 and Plan 2.1 recruit graduates with a Master's Degree who have research experience

Plan 2.2 recruits graduates with a bachelor's degree with a very good GPA.

Master of Engineering (2 years)

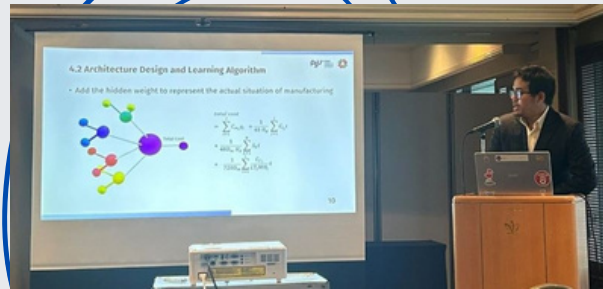

Course Structure

Category	No. of credits		
	Plan A1	Plan A2	Plan B
Compulsory	-	3	3
Selective	-	12	27
Thesis	36	21	-
Dissertation	-	-	6
Total	36	36	36

Remarks

Plan A focuses on research (thesis only)

Plan B emphasizes coursework and case studies (dissertation)

Choosing PSU

- One of the top universities in Thailand, a leading institution in the South.
- Lecturers and students receive awards for research and inventions on a regular basis.
- Teaching incorporates both theory and practice to enable students to pursue careers in various fields.
- Students can meet and approach lecturers more easily than in universities in the Bangkok Metropolitan Region.
- The environment and atmosphere in the university are beautiful, livable, surrounded by nature, good air, reservoirs, and healing gardens.
- There are various facilities nearby, e.g., buses, dormitories, cinemas, restaurants, convenience stores, gas stations, and WiFi.
